The Liberty School District held a public hearing Tuesday night to discuss the low performance rating received by Liberty High School from the Texas Education Agency. LHS received the rating due to the 1993-94 drop out rate of African American students. That year 15 of the 169 African American students failed to graduate. **Principal Don Lorenz** told the few present that they have several programs to help lower the dropout rate. He said they are already using West Liberty High School, remedial TAAS test courses, and Student Assistance Programs. Lorenz also said they have plans to use the East Chambers County Behavioral Center, the Hardin Guidance Center, and a program call XLR8 to help lower the dropout rate. These should be available next semester through a cooperative effort of several school districts. Only four parents attended the meeting to voice their concerns over the dropout rate, and to urge early detection of potential drop out students.

The Liberty County Commissioners opened two proposals for privatizing the County jails at yesterday's meeting. Corrections Corporation of America, and Community Corrections Inc. submitted lengthy and detailed proposals that included putting a juvenile detention center in the new jail. CCA's proposal includes $90,000 a month rent to the County. CCI's proposal included 3 options, all requiring juvenile detention. CCI's payments to the County would range from just under $500,000 to just over $1 million a year. The Commissioners hope to have representatives of the companies at next Monday's Commissioners Court meeting to go over their proposals.

****

After yesterday's meeting, the Commissioners held another budget workshop. Auditor Harold Seay presented a proposed budget with most departments having budgets similar to last year. The big difference was the County Jail's budget. The jail has only 144 inmates at this time, and the Commissioners told Sheriff O.J. Stewart he needed only 30 jail employees. There are currently 60. Consequently, next year's jail budget was reduced by some $593,000. Sheriff Stewart said he present new figures to the Commissioners by tomorrow. Commissioner Lee Groce said the proposed budget could be put in place without a tax increase.

Anyone with information is asked to call the Sheriff's Department at 336-4500.

Former City of Liberty employee, Rita Ivy, pleaded guilty last week to one the indictments against her, and received 3 years deferred probation. The other indictment was dropped. Ivy was indicted last January for misapplying and exercising control of some computer equipment belonging to the City. Ivy pleaded guilty in Judge J.C. Zbranek's 75th District Court. She was also ordered to pay a $1500 fine, and serve 200 hours of community service.

-VOLUME 11 NO. 169 FRIDAY SEPTEMBER 1, 1995-

There was another gas leak in Liberty County yesterday. It was third one in the month of August. Just after 4pm, a bulldozer was razing a house just off of Hwy 146, south of Hwy 90 in Dayton, and hit a 10 inch gas valve owned by the Mid-Com Company. Natural gas escaped, but there was no fire. Traffic on Hwy 146 had to be diverted around the site while crews installed a bypass around the valve. Late yesterday, it was thought it would take several hours for the crews to secure the area and re-open Hwy 146.

The Liberty County Commissioners held a rather lengthy Budget Workshop yesterday at the Adult Probation Office. The Commissioners and County Judge Lloyd Kirkham heard from 18 department heads, on what they needed to run their offices next year. More pay for employees, equity of pay, additional employees, more money for supplies, more travel expenses, and radios were just some of the things the department heads wanted from the Commissioners. Commissioner Lee Groce said the new budget depends solely on how the County jails will be run next year.

The City of Liberty began repairs to Mizell Road yesterday. According to Harvey Joiner, of the City, they began laying a thin oil base on the first 700 feet off of Hwy 146. Joiner said they will be doing one side of the road at time. He said they will have the oiled side of the road barricaded and motorists should not drive on that side of the road. After the oil sets, Joiner said they will be putting down asphalt paving, and should be finished by Tuesday.
