Liberty Mayor Paul Henry is urging citizens to strongly consider the half cent sales tax increase. The issue is on the May 6th City election ballot, and the extra funds will be used to build a levee to hold back flood waters. Mayor Henry said that over the past 10 years flooding in the City of Liberty has gotten worse, climaxed by last October's record setting flood. He said that citizens and businesses can not afford the monetary loss, or mental stress of another major flood. Mayor Henry said that he fears people will move out of the city if the flood protection levee is not constructed.

Over the past few days KSHN Radio has had many complaints from listeners about poor reception quality of our signal. We can assure you there is nothing wrong with your radio, or our transmitter. The problem is a common phenomenon that is called "skip". When temperatures vary at different levels of the atmosphere, other signals from stations that also operate at 99.9 FM travel further than they should and interfere with our signal. The condition will correct itself in a short period of time.

Dayton Police say there is no such program at the School District or at their Department. Any citizen that has accepted the packet is asked to contact Officer Leslie Torrey at the Police Department at 258-7621.

The Texas Department of Transportation is hoping to re-open the East bound Highway 90 bridge, over the Trinity River, by this weekend. **Ed Seymour**, of the Liberty TxDot Office, said that replacements for the damaged supports have been fabricated in New Orleans, and work replacing them began on Tuesday. Seymour said that the State's contract with the company allows them 10 days to complete the repairs, once the supports have been made. Seymour said that more rain could delay the re-opening of the bridge, that has been closed since March 1st.

According to information released by the **Texas Department of Human Services**, The Emergency Food Assistance Program will be reduced due to fewer surplus commodities. They say that the U.S. Congress has appropriated some $55 million less for the program this year. Liberty County Officials say they do not know when the next distribution will occur.

Rainy conditions yesterday apparently caused a one car rollover accident on FM 563 in the City of Liberty. According to **Police Officer Scott Mouton, Mike Lee Huckabay**, 27, of Liberty, was driving his Ford Bronco north on FM 563 when he hit some standing water. This caused the Bronco to head for the ditch, and Huckabay apparently over corrected, and the Bronco landed on its roof. Huckabay, and his 23 year old wife **Teresa**, were both wearing their seat belts, but had to be transported to Baptist Hospital Liberty, where they were treated and later released. Officer Mouton said the Bronco suffered major damage.
