Jury selection for the capital murder trial of Ronford Lee Styron begins its third week today. Styron is charged in the beating death of his 11 month old son back in October of 1993. The case is being heard in the 253rd District Court of Judge W.G. Woods. Styron is charged under a fairly new Texas Law, that calls for the death penalty for death of a child under 6 years of age. Judge Woods said that 14 jurors have been qualified to serve on the jury, that must be able to issue a sentence ranging from lethal injection to probation. There are 97 prospective jurors, and Judge Woods said that more may be needed.

The City of Liberty is considering putting a cap on sewer rates. City Administrator Bruce Mintz said that they may limit sewer charges to only the first 15,000 gallons of water used. Mintz said that the change may be made, since all water does not go into the sewer. Mintz also said that the City faces a 5 percent increase in electricity cost from the Sam Rayburn Municipal Power Agency, and that Waste Management's garage rates could be raised by as much as 5 percent also. Mintz said the City Council will decide how much, if any of the increase will be passed on to garbage customers.

If callers in the Hardin exchange approve the service to call Liberty toll free, Liberty calls to the Hardin exchange will also be toll free, local calls. Also, if approved, a maximum monthly fee of $3.50 will be charged residential customers no matter how many other exchanges they have approved.

Three female prisoners, in the Liberty County Jail, suffered first degree burns after they were given the wrong solution for lice treatment. According to **Sheriff O.J. Stewart**, the inmates, from Honduras, were taken to the jail by the Immigration and Naturalization Service. Prisoners are normally checked for lice in the booking Area, and given lice shampoo before they enter the jail population. But Saturday, Stewart said the three inmates were given a caustic solution to wash with, while they were in the jail shower. They were treated at **Baptist Hospital Liberty**, and returned to the jail the same day. Sheriff Stewart said that he is trying to find out why and how they were given the wrong solution.

It appears that the first major step in acquiring the right of way to widen and straighten **FM 1409** is just about complete. Liberty County hired **Richard Pickett** to run a chain of title for the land needed, and he said that he has completed the work on 1.7 miles of the road near the Chambers County line. Pickett said that all that is needed now is an appraisal, and then the title to the land will be deeded over to the County. Pickett said the remaining 17 miles, to Dayton, will be a lot easier to obtain. It will still take several years to complete the project that will eliminate **"Dead Man's Curve"**, where several fatal accidents have occured.

Liberty County Commissioners are considering using part of the County's Right-of-Way fund to repair numerous substandard bridges spanning County Roads. **Commissioner Bobby Payne** said that no decisions have been made at this time, but the Commissioners have had discussions on the matter. Payne said that the fund has a balance of about $900,000, and that the State has no immediate plans that would need right of way purchases. Payne said that the problem is that school buses cannot cross the bridges, and this puts a hardship on parents having to take their children to where they can catch a bus. The substandard bridges also cause a liability problem. Commissioner Payne said that if they decide to use money from the fund, they would leave a balance of at least $600,000, in case a right of way purchase is needed.

What has been a closely guarded secret, for more than a year, is now a matter of fact! **The Sam's Club Division of Wal-Mart Stores**, has announced the selection of Dayton, as the site for a **Sam's Club Distribution Center Warehouse**. The $6 million facility will be built on FM 686, across from the Hightower Prison Unit, and will result in about 60 jobs at the 80,000 square foot building. The talks were kept secret at the request of the Company, since negotiations for other sites fell through as real estate values and cost of services soared when it was learned that Wal-Mart was the prospect. Most of the effort to get the Wal-Mart warehouse in Dayton was handled by **Chamber of Commerce Manager, Jeff Winter**, and **City of Dayton officials**. Company officials said that construction could start this month, with the facility being completely operational by the summer of 1995. The Company has applied for a $3 million building permit from the City. **Mayor Larry Harris** said that about half of the property is inside the City limits.

****

Several Liberty County communities are petitioning the Public Utilities Commission to enlarge their local, toll free telephone calling areas. **Janice Ervin**, of the PUC, said that she has petitions from **Devers, Hull, and Raywood**, and that residents in those areas should receive their voting ballots in October phone bills. If approved by 70 percent, those persons will be able to make local calls to other approved exchanges. But Ervin said that persons in larger cities, such as Liberty and Dayton, will not be able to make free return calls unless they file their own petition.

****

Woodrow Wilson Jr. High School Principal, Larry Wadzeck, reminds everyone that the school will not allow use of lockers this year. Wadzeck said the school will issue each student a set of books to leave at home, and each teacher will have set for classroom use. Students should pick up their books before **August 16th**, the first day of school.

****

The Texas Department of Health Clinic, at 501 Palmer Street in Liberty, will hold a **Dedication Ceremony** Monday morning at 10am. The Dedication Ceremony will officially name the building the "**Henley Building**", in honor of out going **Liberty County Judge Dempsie Henley**. A new sign for the building will be unveiled to officially designate the building as the "**Henley Building**". The public is urged to attend.

The Daisetta City Council voted Tuesday night to lower their sewer rates back to a $10 flat fee. **Mayor Marvin Murray** said that the Council had received inaccurate information from former City Secretary, **Glenda Ferguson**, and that caused them to raise rates. Ferguson was indicted, and later plead guilty, to theft by a public servant, and forgery. The City had added $1.50 to sewer bills for each additional 1000 gallons of water used. This caused just about all the City's sewer bills to double, but the City went back to the flat fee Tuesday. A large crowd of about 60 attended the meeting.

In a move that clearly disappointed Liberty County **Judge Dempsie Henley**, the County Commissioners voted Monday to table, for 30 days, any vote on the County taking title to the **Allied Pipe and Tube** building in Liberty. Judge Henley had said that if no use is found for the building by November, the Company will tear it down. **Commissioner Lee Groce** said that he is very concerned about the expense and liability the County would assume if they took title to the building. **Commissioner Harry Hylton** said that if it came down to the County taking title to the building or tearing it down, he would vote for the later. **Commissioners Hunt and Payne** said that they needed more information to make a decision. Judge Henley said that he would still try to acquire the title to the building, with or without Groce's vote.

The Texas Forest Service has reduced the High Fire Danger Alert, in Liberty County, to a **Fire Danger Advisory**. This is the lowest of the three alerts the service issues. The service now recommends that residents use safety measures, such as having a garden hose nearby, and enclosed trash receptacles when burning outside. General rains over the last few days, and especially yesterday's heavy rain of over 3 inches, have temporarily lessened the fire danger in the area. All residents should make sure it is legal to burn outside in their area.

****

Charles Kaemmerling, of **Baptist Hospital-Liberty**, said that the Hospital will obtain new radiology equipment with funds from their Commitment to Caring Campaign. The Campaign reached its goal of $750,000 last month, through donations and pledges. Kaemmerling said that the Radiology Department is just the first Department that will be upgraded, and that others will follow.

A United States Grand Jury, in Beaumont, has indicted five well known brothers from Liberty County. The three count indictments were handed down Wednesday against **Lamar Maxwell, Lloyd Maxwell, Donald Maxwell, David Maxwell, and Arthur Maxwell**. The indictments allege that the Maxwells owed over $12 million in installment loans to various individuals, banks and other financial institutions, and that in November, 1986, they made false statements on an $800,000 loan application to the now defunct **First State Bank** in Liberty. Daisetta City Councilman, Lynn Wells, says that he expects the City Council to lower sewer rates at next Tuesday's Council meeting. Wells said water and sewer bills just about doubled last month, when the Council voted to change the flat sewer rate. Daisetta now charges an additional $1.50 for every 1000 gallons of water used, above 2000 gallons. This charge is also added to the sewer bills. Wells said that citizens have complained that water used on gardens and lawns does not go down the sewer, and that the additional sewer fee should not be charged. Wells said that Daisetta citizens should attend Tuesday's meeting and voice their opinions.
